

MTH 1W - Weekly Warm-Up Activities

These activities should only take 5 - 10 minutes at the start (or anytime) of class. They are designed to help students work on their calculation skills with concepts such as: multiplying, dividing, integers and fractions.

Note: each week is designed with 5 warm-up activities (this can be adapted as necessary)

- Week 1 - [Number Strings: Multiplying](#)
- Week 2 - [Number Strings: Multiplication with Decimals](#)
- Week 3 - [Working with Fractions and Decimals](#)
- Week 4 - [Adding and Subtracting Fractions](#)
- Week 5 - [Adding and Subtracting Integers](#)
- Week 6 - [Multiplying Fractions](#)
- Week 7 - [Dividing Fractions](#)
- Week 8 - [Slow Reveal Graphs \(Stats\)](#)
- Week 9 - [Solve Me Mobiles \(Equations\)](#)
- Week 10 - [Which One Doesn't Belong \(Angles\)](#)
- Week 11 - [Order of Operations](#)
- Week 12 - [Substituting Into Formulas](#)
- Week 13 - [Number Sets](#)
- Week 14 - [Beaver Context Questions \(Coding\)](#)
- Week 15 - [Circle Properties](#)
- Week 16 - [Who Am I Puzzles](#)
- Week 17 - [EQAO Practice - Part 1](#)
- Week 18 - [EQAO Practice - Part 2](#)
